

Fleet Complete Hub

Fleet telematics made simple

A 360° view of your mobile business with just one click

Fleet Complete Hub is your telematics platform to improve fleet operations. Its fully integrated suite of tools allows you to easily add features you need and pull together the insights necessary to drive your business forward.

Our solution enables you to monitor your drivers to help improve safety—theirs and the public, and to reduce business risks. Some insurance companies will even lower your premiums when you add a telematics solution.

The tools in Fleet Complete Hub connect in one easy-to-use mobile platform. This delivers intuitive, real-time insights on the performance and status of drivers, trucks, vehicles, heavy equipment, and all other moveable assets.

Fleet Complete Vision

Powerful video telematics that help lower insurance premiums and help save on fuel and maintenance while improving public and driver safety.

Fleet Complete BigRoad ELD

Web and mobile compliance tools to make Hours of Service (HOS)/ Electronic Logging Device (ELD) compliance easy and defensible for drivers and fleet managers.

Fleet Complete Connected Devices

Connect your vehicles, equipment, and assets, with the right GPS device to get intuitive real-time insights.

Make the connection for safety

Fleet Complete Hub gives you the flexibility to only add the telematics tools you need.

- Reports for distance, trip, driving, speeding, idling, stopping, geofencing, fuel consumption, and more
- Automated fleet insights for up-to-date planning and budgeting
- Real-time monitoring uses easy-to-understand status, color coded geofences, categorized Electronic Control Module (ECM) data, and point-of-interest names instead of addresses
- Rules to alert or log common situations such as arrival, departure, speeding, harsh braking or cornering, or engine over RPM
- Fleet grouping by organizational need such as by business unit or geography
