

AT1 Wired Asset Tracker with ignition detection

A new way to measure and improve your operations

The critical ignition detection feature opens more possibilities for you and your business than before. Track use, location, operation hours, and maintenance to optimize your Total Cost of Ownership (TCO). Have full visibility of your assets use and downtime, so you can measure, learn, and improve your operations in near real-time.

Key features

Streamlined platform

Our user-friendly platform is optimized to provide quick access to the most important asset management tools, all from one screen.

Powerful reports

Standardize data and use automated reports to compare the usage of equipment to identify improvement opportunities in your daily operations.

Work Smarter

Know when and for how long your assets are being used, optimizing your inventory and resources management.

Address environmental concerns

Make sustainability a part of your daily operations. Reduce energy and waste with proper equipment maintenance.

Theft protection

Customized alerts let you know when assets leave or arrive at a given area so you can protect your equipment integrity and collaborate with authorities to quickly recover them in case of theft.

Unlock new business opportunities

Take your operations into the digital era. Usage information allows you to explore new business models and savings opportunities.

Improved customer service

Easily locate all of your equipment and other assets on one web map for best customer support and logistics.

Maintenance management

Set periodic inspection alerts by time or distance¹ to help you to keep your assets in optimal condition through regular maintenance service.

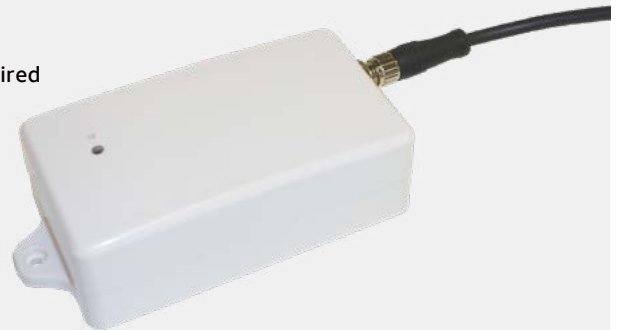

Multiple Hardware Options

Asset Tracker AT1

Solar

Wired

One of the smallest and most cost-effective equipment trackers on the market, Asset Tracker AT1 provides you an unparalleled competitive insight over your high-value assets in the field. Instantly locate and check the status of machinery, equipment, tools and toolboxes, cargo, and more, all from your mobile device.

Contact your Regional Fleet Complete Expert for more information.

¹Asset Tracker AT1 Wired required.
