## AT&T Fleet Complete Asset Tracker

See into every corner of your operations

The newly redesigned AT&T Fleet Complete asset tracker interface provides you with a streamlined user experience, customized to meet your asset management needs. With operations efficiency in mind, our platform helps you to manage multiple assets in different locations from one screen, providing you with a birds-eye view of your entire operations, so you don't miss anything.

Business
Solutions

Fleet   Asset   Trailers   ELD   Workforce   Tasks   Dashcam   Dispatch   EPTT   Internet   Integrations

Key features

Streamlined platform
Our user-friendly platform was optimized to provide you quick and simple access to the most important asset management tools, all from one screen.

Powerful reports
Automated and customized reports help you identify continuous improvement opportunities on your operations.

Work Smarter
Know where your assets are at all times, optimizing your inventory management tasks and eliminating unnecessary yard runs.

Reduce equipment misuse
Ensure proper asset allocation with GPS location monitoring and mitigate equipment use outside working hours customized with engagement alerts[1].

See virtually everything and where it is
Customized alerts let you know when your assets leave or arrive at a given area so you can protect your equipment integrity and support authorities to quickly recover them in case of theft.

Improved customer service
Easily identify assets and location to ensure proper equipment allocation to your customers with the most up-to-date information.

Maintenance management
Set periodic inspection alerts by time or distance[1] to help you preserve your assets and optimize maintenance.

Lifetime training and support
Have access to lifetime training on our platform to ensure you are making the most of our platform.

Flexible and scalable

Supported by different hardware options, we help you with all your tracking needs.
