

Inspect by AT&T Fleet Complete

Inspect by AT&T Fleet Complete is a mobile application that allows drivers to complete their Driver Vehicle Inspection Reports (DVIR) to stay compliant with the government regulation in the U.S. and Canada. Using this app, drivers are able to easily perform pre/post-trip vehicle inspections, log any minor or major defects, and sign off on the report, providing fleet managers at the head-office an instant status update.

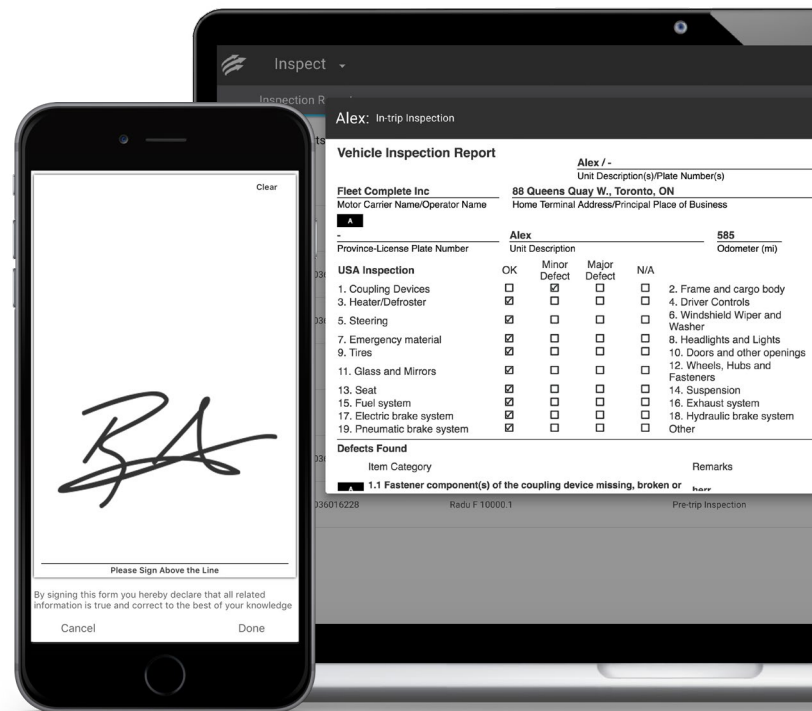

- Greater efficiency during vehicle inspections
- No paper trail
- Compliance with government schedules
- View of previous and current defects logged
- Integration in Mechanic Portal

DVIR Solution

Inspect by AT&T Fleet Complete is designed to simplify vehicle inspection reporting and assist a driver with road safety compliance. The driver follows an easy-to-use checklist, makes remarks of any known defects, and provides a signature right in the app. Reports completed by previous drivers for the same vehicle can also be accessed. All reports can be viewed immediately after their submission by supervising managers through the DVIR Web Portal for audit purposes.

Web Mechanic Portal

After the routine vehicle inspection is completed, defect logs are accessible on the Mechanic Portal. From there, a mechanic can select any vehicle from the list, view all the repairs needed and sign off straight in the portal when they are done. This will prompt a notification in the Inspect app, allowing the driver to keep or reject repairs.

Painless Roadside Inspection

Logged reports are accessible for 48 hours after the submission for roadside inspection. Drivers are able to use a simple lock and unlock function on the Inspect application for the inspector's review. It will only display required information, keeping their private data secure.

Avoid hefty fines

By equipping your drivers with the Inspect by AT&T Fleet Complete solution today, you are taking advantage of safety, efficiency, and cost-saving benefits that come with the solution. By keeping your vehicles' health in check, you not only avoid heavy government fines, but also keeping maintenance and repair costs to a minimum.

Supported devices

Inspect by AT&T Fleet Complete can be easily downloaded from the Apple or GooglePlay stores. It runs on both Android and Apple smartphones and tablets.
